Key Features and Benefits

Simple User Interface, Optimal User Experience

MP54 is a Zoom-tailored IP phone with a 4-inch capacitive touch screen, offering a faster response speed, dedicated Zoom buttons, and easy-to-use interface. It facilitates high-quality collaboration with flexibility thanks to the one-click to join feature and integration with Exchange. This simple and reliable option is ideal for office workers.

Easier to be Heard and Involved in the Call

MP54 combines professional hardware and software technology to deliver crystal-clear voice communications. Thanks to Yealink Optima HD voice and Noise Proof Technology, MP54 provides an excellent audio experience under different network and bandwidth, allowing users to concentrate on the content of a call. Moreover, Yealink HD voice refers to the combination of software and hardware design as well as the implementation of wideband technology to maximize the acoustic performance. Coupled with advanced acoustic clarity technology such as full duplex, echo cancellation, adaptive jitter buffer etc., MP54 provides comfortable, clearer, and more lifelike voice communications.

Efficient Provisioning and Management

MP54 is coupled with Yealink efficient auto-provisioning mechanism, including phone deployment and configuration. Administrators can take advantage of centralized deployment, management and updating. Moreover, MP54 supports two device management platforms, including Zoom (ZDM) and Yealink (YDMP) Device Management Platform.
